SOCIAL WATER MANAGEMENT AMONG MUNDA PEOPLE IN THE SUNDARBAN

Chiara Perucca
with
Krishnapodo Munda
Chiara Perucca is an Italian socio-anthropologist; she got her degree in Political Science at the University of Turin and a Master in Cooperation and Development (IUSS, Pavia). She has been working with NGOs in different countries (Cuba, Italy, Malta, India, and Bolivia) as a researcher and educator focusing on Environmental and Development Education, Climate Change Adaptation and Water Social Management among Indigenous People. In particular, from 2006 until 2009 she has been working with Aymara People in the Andes.

Starting from 2010 she is Visiting Researcher at the Institute of Sustainable Development (ISD) of the University of Liberal Arts Bangladesh (ULAB), leading the research project which results are exposed in the present book.
## Contents

### Preface & Acknowledgement

1 Research Perspective & Approach
   1.1 Background
   1.2 Research rationale and justification
   1.3 Objectives of the research
   1.4 Indigenous Ecological knowledge: definition and relevance
   1.5 Methodological approach
   1.6 Data collection and management
   1.7 Study population and sampling
   1.8 Dissemination of the results

2 General Context of the Research
   2.1 Tribal Castes, Adivasi, Hillman: how to define Indigenous People in Bangladesh?
   2.2 The legislative frame about Adivasis and Indigenous Knowledge
   2.3 Number and location of ethnic communities in Bangladesh
   2.4 The Sundarban Forest: blessing and curses
   2.5 Relief and development intervention in Shyamnagar area

3 Munda People in Sundarban
   3.1 Munda people in India and in Bangladesh
   3.2 Sundarban's Munda: history of an almost unknown group
   3.3 Number and location of Munda people in Sundarban
   3.4 Economy, education level and food habits
   3.5 Social dimensions of the community’s space
   3.6 Kinship and leadership system
   3.7 Munda spiritual world
   3.8 Ritual practices and cultural celebrations
   3.9 Life cycle rituals

4 Water Social Management
   4.1 Natural resources historic frame of reference
   4.2 Ownership and control over the water resources
   4.3 Seasonal frame of reference
   4.4 Actual use of water sources
   4.5 Rain harvesting and water preservation
   4.6 Knowledge about weather behavior and perception of climate change
   4.7 Social and cultural practices related to water
   4.8 Needs of Munda people related to water and interactions with ongoing initiatives

5 Conclusion and Recommendations
   5.1 Self driven problem solving approach?
   5.2 The challenge of interventions’ social sustainability
   5.3 Future steps for Munda organizations and Government Actors

Preface & Acknowledgements

The institutions that made possible the implementation of the “Social water management among indigenous Munda in the Sunderban Forest area” research project are:

• **The Institute for Sustainable Development (ISD)** is a research institution of the University of Liberal Arts of Bangladesh, ULAB, motivated by social responsibilities, moral concerns, socio-environmental challenges to provide present and future generations with relevant knowledge and expertise for a better citizenship both in Bangladesh and the global world. The ISD also aims to execute interdisciplinary research in diverse areas that cover socio-environmental issues including: integrated resource management, renewable energy, natural hazards, climate change adaptation, green business, gender equity, and good governance and policy.

• **The Bangladesh Resource Centre for Indigenous Knowledge (BARCIK)** is a non-governmental non-profit development organization, established in 1997. BARCIK has been involved in exploring and incorporating indigenous knowledge and local practices into contemporary development programs. Some of the key advocacy issues which BARCIK has been involved in include: Seed Rights, Genetic Resource, Disaster management and Local/Indigenous Knowledge, Water Rights, Climate change adaptation and local/indigenous knowledge, Gender and access to natural resource. BARCIK has been actively conducting various research initiatives and studies involving issues of agro-biodiversity, livelihood change and access to natural resources. www.barck-bd.org

• **Sunderban Adivasi Munda Shangashta (SAMS)** is an association formed by Munda people, in order to promote their rights and culture, its mission is to “rebuild the spiritual world of cultural and religious values of the Munda in order to do away with untouchables, caste discrimination, and poverty.” It has been founded in 2003 with the support of Father Luigi Paggi, a Xaverian Missionary, by 5 young Munda men. In 2009 the association has been registered at the Social Welfare Ministry, currently is processing the permit at the NGO Affair Bureau in order to be recognized as an NGO.
Some of the actions SAMS in implementing are: education tuition programs, management of drinking water, solar panels distribution and houses rehabilitation after Ayla cyclone.

The staff that has been working in the research was composed by:

From ULAB - ISD:
MSc Chiara Perucca, Research Leader
Mr. Faruq Shahriar Isu, local stakeholders’ questionnaires analysis & graphic editing

From BARCIK:
Ms. Rehnuma Binte Razzaque, Research Assistant
Mr. Md. Sahin Islam, Questionnaires’ Data Collector
Mr. Susanto Kumar Mondol, PRA Facilitator
Mr. Bablu Joarder, PRA Facilitator
Mr. Ram Krishno Joarder, Logistic Facilitator
From SAMS:
Mr. Krishnapodo Munda, Co-researcher
Mrs. Boruna Munda, PRA facilitator

It is our duty to express our thanks for the fundamental support that has being given with enthusiasm by the Xaverian Missionary father Luigi Paggi. He has shared with us all the bibliography he had collected along the years about Munda people and has open us the doors of his mission during the several visits to the field, providing indispensable logistic facilities (food, accommodation, space for the systematization meetings). He also was the link among us and the NGO Rishilpi, which kindly accepted to host in their headquarters the public presentation of the research's findings to the local actors, which will be held in April 2011.

We are also extremely grateful to the executive Director of BARCIK, Mr. Sen Sukanta, who had an immediate confidence in the research project and accepted to invest many competent and helpful human resources and provided logistic facilities from the Shyamnagar office.

The ISD Deputy Director, Dr. Rathana Peou van den Heuvel has given us unconditional trust and had guaranteed us they must complete independence along all the implementation of the project.

We must also thanks for the precious suggestions and bibliographic references they kindly provided:
Mr. Sanjeeb Drong, Executive Director of Bangladesh Adivasis Forum,
Mr. Mahfuz Ullah, General Secretary of the Centre for Sustainable Development CFSD,
Professor Dr. Ahm Zehadul Karim,
Mr. Kazi Zaved Khalid Joy, Coordinator of Initiative for Right View (IRW),
Mr Brian Davies, Uttaran VSO,
Mr. Michael Mc Manus, Agrogoti VSO.

Mr. Sanim Fahad Aneem, was kindly collaborating with the pictures’ editing.

Thanks to the editing made by our friends Susana, David, Mathilde and Shekufe, the Italian and Bangla linguistic contaminations in the text have been cleared away.

Last but not least, we are grateful to the Munda people of the villages of Datinakhali, Srifalkati, Kashipur, Sapkahi and Kalinchi that shared with us time, food, songs, and precious knowledge.
