# UNIVERSITY FOUNDATION

## Liberal Arts

Originally, a liberal arts education was the body of knowledge considered essential for a free human being. A modern liberal arts education thus gives students the opportunity to explore many areas of knowledge. In the modern world this range of exploration is essential. The essence of liberal arts is that it focuses on breadth of knowledge as well as depth. It stresses communication skills and emphasizes analysis rather than repetition.

ULAB combines a core curriculum with optional courses through which students build a foundation for further education and pursue a wide base of knowledge.

Through the rigorous pursuit of varied topics, a liberal arts education does not answer that ancient question of what knowledge is required for a free human being. Instead, a liberal arts education gives every student the opportunity to answer that question to his or her own satisfaction.

Guided by the principles of liberal arts, progressive education, sustainable development, active teaching and learning, research, and engaged citizenship, ULAB is, therefore, devoted to developing young minds and firmly committed to helping young people become responsible and caring citizens of their nations and the world.

## Sustainable Development

While placing a strong emphasis on delivering quality education, the University of Liberal Arts Bangladesh (ULAB) has consistently upheld 'Sustainable Development' as one of its six fundamental principles since its establishment. This commitment is encapsulated in the principle of "Employing sustainable practices and respect for human rights, to become responsible leaders of the future." ULAB's other five guiding principles encompass Liberal Arts, Progressive Education, Active Teaching and Learning, Research, and Engaged Citizenship. The ULAB's Strategic Plan for 2017–2023 elaborates on its pursuit of sustainability. This includes seeking international accreditation for its sustainability programs, which integrate sustainable development into all aspects of teaching, learning, research, and administrative practices. Additionally, the university aims to create a state-of-the-art green and sustainable campus that incorporates the latest environmental, communication, and educational technologies through the implementation of the "Green Plan" and "Sustainability Plan."

Established in 2006, the Center for Sustainable Development (CSD) at ULAB is a pioneering institution in Bangladesh dedicated to teaching and researching sustainable development.

## Diversity Statement

The University of Liberal Arts Bangladesh is dedicated to fostering a diverse and inclusive community where all individuals are valued, respected, and empowered to thrive. Central to our commitment to diversity is the recognition that every person brings unique perspectives, experiences, and talents to our university.

We recognize that promoting diversity and inclusivity is essential for building a sustainable future. By fostering a culture of inclusivity, we create spaces where individuals from all backgrounds feel welcome and empowered to contribute to sustainability efforts. We believe that diversity sparks creativity and innovation, leading to more effective and equitable solutions to socio-political, economic, and environmental challenges.

In pursuit of our mission to educate future leaders who are committed to positive social change, we are dedicated to fostering a culture of inclusivity, diversity, and sustainability at the university. Through our collective efforts, we aim to create a more just, equitable, and sustainable world for current and future generations.

## Outcome Based Education (OBE)

All ULAB's graduate and undergraduate programs adhere to the OBE curriculum. The University Grant Commission (UGC) and the curriculum committees of the relevant programs review these curricula. The four-day training that the Quality Assurance Unit of UGC with Higher Education Quality Enhancement Project (HEQEP) offered in 2017 marked the beginning of ULAB's transition to the OBE curriculum. Subsequently, ULAB and Board of Accreditation for Engineering and Technical Education (BAETE) collaborated to introduce OBE curriculum in the CSE, EEE, and ETE engineering programs. The corresponding programs established separate curriculum committees in accordance with the directive to submit the revised curriculum to UGC for approval. The committees rewrote the curriculum based on constructive alignment between the three areas: teaching and learning activities, learning outcomes, and designing and implementing assessments. To ensure a seamless transition to the OBE, a series of trainings involving national and international resource persons were given to the educators organized by IQAC and Center for Teaching and Learning (CETL). Recently ULAB has procured the IonCUDOS software for the Outcome Attainment Calculation which is under implementation starting with the engineering programs. Gradually all the other programs will be using this software for better management of the OBE curriculum.

# ABOUT ULAB

## History

The University of Liberal Arts Bangladesh (ULAB) is a private university in Bangladesh based exclusively on the Liberal Arts educational model. ULAB was formally inaugurated on October 1, 2004.

ULAB's founder, late Kazi Shahid Ahmed, believed in creating works that benefit the people of Bangladesh and are of service to the country. He thus created a place of learning where well-rounded students would be steeped in the values of their own heritage yet trained to face the modern global workplace. Beginning with just 52 students, ULAB now has about 6,000 students in its undergraduate and graduate programs.

The purpose-built campus in the heart of Dhanmondi was opened in the Fall of 2006 and the green Main Campus, located in Mohammadpur, Dhaka, became operational in 2019.

## Accreditation

The University of Liberal Arts Bangladesh and its curriculum are accredited by the University Grants Commission (UGC) of Bangladesh, and approved by the Ministry of Education, Government of the People's Republic of Bangladesh.

The Electrical and Electronic Engineering (EEE) department of ULAB has been accredited by the Board of Accreditation for Engineering and Technical Education (BAETE) under Institute of Engineers Bangladesh (IEB). The Media Studies and Journalism (MSJ) department of ULAB received program accreditation by Global Alliance for Public Relations and Communication Management (GA), Switzerland.

## Strategic Plan

ULAB adopted a strategic plan 2017–2023 that sets out the directions for the university to become the highest ranked private university in Bangladesh. According to the strategic plan, the university adopted a three-part strategy for development and growth – a. teaching and learning, b. research, and c. engagement. Under these branches a university-wide plan was devised, which governed the future directions of ULAB, which in turn was translated into action plans developed by the key units within the university – the academic departments, the research centers, and the core administrative units. ULAB is currently working on its next strategic plan.

## Lodging a Complaint

Anyone who feels aggrieved or believes that the ULAB Code of Conduct has been violated may lodge a complaint with the Proctor's office or to any ULAB official, including a faculty advisor, other faculty members, admin/staff members, or the Student Affairs Office. Any formal complaint must be immediately forwarded to the Proctor's Office with the consent of the aggrieved person.

All formal complaints must be written and the complainant must submit his/her name, ID and signature. **The Proctor's Office will not pursue any verbal or anonymous complaints for Disciplinary Action.**

The Proctor is the first step in the Disciplinary Process. Upon the Proctor's recommendation, a complaint will be referred to the Sexual Harassment Committee (as needed) escalated to the Disciplinary Committee, as outlined above and as required by law.

## Disciplinary Procedures

The following procedures are to be followed in dealing with the complaints/ offences/ cases:

- 1. Charges & Hearing:** Upon referral by the Proctor's Office, the Disciplinary Committee shall hear all violations of the Code that have been brought to the notice of the Chairperson. It shall inform the accused student of the charges against her/him well in advance of the hearing to afford reasonable time to prepare a defence. The Student Affairs Office will attend all hearings as an agent on behalf of the student(s) and will make recommendations to the Disciplinary Committee. The Disciplinary Committee shall aim at finding the truth and shall take evidence for that purpose. Evidence not having direct bearing on the charges shall not be admitted. The Disciplinary Committee shall arrive at clear determination whether the student is guilty or not.
- 2. Referral to Sexual Harassment Complaint Committee:** The Proctor's Office will refer issues of Sexual Harassment (widely known as 'Eve Teasing') to the Sexual Harassment Complaint Committee, which will investigate and report their findings to the Disciplinary Committee. For further information, please refer to the Complaint Policy in the Appendix.
- 3. Private Hearing:** The enquiry shall be held in private unless the accused student desires, in writing, to an open enquiry. The Disciplinary Committee may refuse any open enquiry in consideration of the sensitive nature of the information to be revealed about a witness, or otherwise that it might affect the right to privacy of the witness or the accused. The Chairperson or any member of the Disciplinary Committee may examine the accused or ask questions.
- 4. Evidence:** The Disciplinary Committee may reject the evidence of any witness on the ground of the witness being an interested person or doubtful witness. The Disciplinary Committee shall not admit testimony of unidentified outside witnesses. When the accused student does not attend the enquiry, the Committee shall take all available evidence in support of the charges before arriving at its conclusion.
- 5. Written Report:** The Committee shall prepare a written report at the end of the enquiry. The report shall become official record in the file of the student(s) and consist of the following:
  - Written charges and other documents
  - Evidences with a summary
  - Findings
  - Sanction/Recommendations

## Academic Programs at ULAB

### General Education

The General Education (GED) program forms the very foundation of the liberal arts curriculum at the University. It serves two main purposes:

- To provide students with several basic subjects by way of building the intellectual foundations and skills necessary for any tertiary-level education, especially from a liberal arts perspective.
- To offer students exposure to courses not offered by their respective departments, but courses that are vital for deepening and broadening their liberal arts perspective.

The General Education (GED) Courses are offered both through the Program and through existing departments. These courses are offered into three categories: General Education Foundation (GEF) Courses, ULAB Core Courses (UCC) and General Education Elective (GED) Courses. The latter also serve as "Optional" choices for advanced students. All the courses listed under the above-mentioned categories are already built into every undergraduate degree program and are clearly indicated on their respective syllabi. Students following any given degree program will be automatically directed toward the required GEF, UCC and GED elective/optional and Minor, that they must take or choose from.

**Website:** <https://ged.ulab.edu.bd/>

### Bachelor of Business Administration (BBA)

The BBA program inspires students to learn and practice the concepts, principles, and methods of contemporary business to become industry leaders. The program aims to strike a balance between liberal arts and business courses, realizing the relevance of each. ULAB's BBA students are distinguished by their in-depth knowledge of the discipline, cutting edge soft and hard skills, and a wider perspective towards the world that is enabled by our liberal arts foundation. As 21st-century global citizens, they achieve the highest skills in the field of business, while at the same time, they attain an appreciation of the fundamentals of the social environment within which all business decisions are made.

## **Bachelor of Arts in English and Humanities**

The BA in English curriculum is designed to give students a solid foundation for building critical and cultural awareness as well as to open unfamiliar worlds and exciting new ways of thinking about humanities. The department believes not only in developing students' basic communication skills in the lingua franca of the world, but also in other key areas necessary to intellectual and professional advancement: humanistic content, analysis, argumentation, rhetoric, stylistics, and so on. These broad offerings to all students make the department one of the major nodal points in the University's Liberal Arts curriculum. The Department's courses are not confined to traditional disciplinary boundaries, but are open to inter- and cross-disciplinary offerings. This dynamic approach allows students to develop skills and sensibilities vitally required by modern English language and literature teachers and by people across professional fields: communications and media, business and marketing, and so on. We are committed to our holistic vision to impart an education to students which combines language skills with literary sensibilities so that graduates become competent and responsible citizens of the world.

## Internship / Project / Thesis

Internship/Project is an invaluable part of ULAB's academic program that allows students to put their academic knowledge into practice. Most of the departments/ programs have a mandatory 3- to 6-credit equivalent internship or project in their syllabi. An Internship is usually done in the last term and the duration is usually 12 weeks. It is the student's responsibility to find an internship place with a suitable organization. Although the University will assist students in this task, the university cannot guarantee an internship placement.

In some programs, students will be required to work on an approved project at the organization and prepare a report at the end of the internship. This report will be presented before a panel of ULAB examiners and will be graded. If a student cannot find an internship placement, his/her department will assign a supervised project work. Students must abide by the rules and regulations of the organization during the period of attachment and will have to obtain an evaluation report from the organization.

## Admission

### Provisional Admission

ULAB may tentatively accept applicants for admission who cannot produce official transcripts by the first week of classes. Such admissions are provisional. All provisionally admitted students who enter the University without complete credentials for admission will be required to submit the appropriate credentials as a prerequisite for continued enrolment. Required credentials must be submitted within the semester of initial enrolment.

### Admission of International Applicants

For purposes of admission, all persons who are not citizens or permanent residents of Bangladesh are defined as international applicants. In most cases, international applicants seeking admission to ULAB must meet the same academic standards for admission as those required for native students. There are wide variations, however, between educational systems throughout the world that make exact comparisons of educational standards difficult.

### Credit Transfer

A student may apply for transfer of credits of a similar course/degree earned from another university/institution only after having gained admission at ULAB subject to a maximum of half the total credits applicable for the particular course/degree at ULAB. Syllabi and Official Transcripts from all previously attended institutions/universities must be submitted at the time of application for credit transfer. Only credits of relevant courses in which s/he earned grade B or better may be transferable to ULAB. The transfer student must have a minimum CGPA of 2.0 and sit for the admission test. The head of the concerned department/program or the Admission Committee will determine equivalence of courses. The application may be referred to the Equivalence Committee, if required. Credit transfer decisions are made on a case-by-case basis where the quality and standard of the institution and/or academic program will be taken into account. For Bangladeshi institutions, transfer of credits will be considered if the institution has been approved by the UGC.

## Course Waiver

Any academic scholarships or waivers offered to a student at the time of enrollment will be continued only if s/he maintains the required CGPA level. The higher the scholarship, the higher the level of required CGPA for continued support. If the student is receiving non-academic merit scholarships, s/he must contribute significantly in their relevant talent fields and maintain a minimum CGPA to continue receiving the scholarships. The required CGPA level for different scholarships or waivers may vary. Students can find the details from their Advisors or the Registrar's Office. Such support may also be reduced or fully withdrawn in cases of disciplinary failures, such as poor attendance or misconduct.

## Non-Degree Student Admission

Applicants with a study break in formal education or those not pursuing a degree may enroll as non degree students in undergraduate courses at ULAB. Admission is on a term-by-term basis with no obligation to continue. Non-degree students can later apply for admission to a degree program. Non-degree students may obtain transcripts reflecting credits for the terms attended. Non-Degree students must pay all the fees except the admission fee. Student ID cards from the previous institution are required for course registration.

## Course Audit

In case of course audit, students can attend a course without submitting assignments, taking tests, or receiving grades or credits with the permission of the Head of the Department and instructor when space is available. Courses that require the use of computer labs or electronic devices may not be audited due to the high demand for the equipment and instructor's attention. Students should not register for these courses and tuition and other fees will be applicable. It will also not be recorded in the academic record.

## Admission Cancellation and Refund

To cancel admission at ULAB, students must submit an application to the Registrar in a prescribed form. Refunds will be issued if the student has made any advance payments.

## Remedial Courses

Remedial English and Math courses are designed to provide essential foundational skills for undergraduate students at ULAB. These courses aim to address any gaps in students' proficiency in English and mathematical concepts, ensuring that they possess the necessary academic groundwork for their respective programs.

The inclusion of remedial courses is based on the student's academic background and ULAB admission test score. By offering remedial courses, ULAB seeks to support all students in attaining a solid foundation, fostering a conducive learning environment for their overall academic development.

## Academic calendar

ULAB offers three academic terms in each academic year in the trimester system as mentioned below.

- Spring - Between January and April
- Summer - Between late May and August
- Fall - Between late September and December

For updated calendars please visit <https://registrar.ulab.edu.bd/personnel/academic-calendar>

## Registration and Course Load

### Pre-registration

There are fixed dates of registration for each term. However, pre-registration for the following term takes place after the mid-term exam of the current term. You are advised to check the Academic Calendar or Registrar's Office for dates. Places held at pre-registration must be validated within the first two days of term registration. Otherwise, they will be vacated in favor of other students. All fees are to be paid at the time of registration and are non-refundable, except for the courses dropped/withdrawn by the time stipulated in the Academic Calendar.

## Late Registration

Students who do not register on time as per academic calendars must pay a late registration fee.

## Course and Section Unavailability

The ULAB always tries to offer the required number of courses/sections for the students. In cases of preferred courses or sections that are unavailable, students are encouraged to consult with academic advisors to explore suitable alternatives and ensure a smooth progression in their academic journey.

In case of non-availability of course and/or section, students will have to apply to the respective course teacher. Upon getting the recommendation from the course teacher the departmental head will approve it. After getting approval from the department head, the student must submit it to the Registrar's Office for registration in the section and/or course.

## Course Load

The normal course load per term is specified in the term-wise course distribution table in each departmental syllabus. A student may take a reduced load under extenuating circumstances only with his or her advisor's approval. Taking a reduced load in the first year is strongly discouraged. A student will be deemed to be in full-time enrollment in a term if s/he is registered for a minimum of two courses. A student may take additional courses beyond the normal load only if his/her CGPA is 3.50 or above and the departmental head approves it on the recommendation of the faculty advisor. This CGPA criteria may be relaxed at the discretion of the concerned Head of the Department. No student will be allowed to take more than five courses per term under any circumstances. If a student wishes to take an extra course beyond the normal load, s/he will be required to pay for the additional course credits.

## Course Add / Drop

Students will be allowed to add/drop one or more courses only with valid reason and on the recommendation of their advisors by the first week of any given term. Here, 'add/drop' does not refer to section change of already registered courses. Therefore, students will not be allowed to change sections of already enrolled courses during the Add/Drop period.

## Course Withdrawal

A student will be allowed to withdraw from course(s) by week 11 (final) of any given term, provided all fees including outstanding dues are fully paid. Specifically, the University set a deadline for course withdrawal every term and therefore, Academic Withdrawal (W) will be allowed only by the deadline mentioned in the academic calendar of that term. In exceptional cases (e.g., serious illness of students, death of parents), students may be allowed to withdraw from a course after week 11 on recommendation of their academic advisor and the Head of the department.

## Scholarships and Financial Aid

The University provides a range of scholarships and aid for its undergraduate students. Merit-based scholarships range from 10% to 100%, with special scholarships available for all females, and extra scholarships for females going into science and engineering fields. Scholarships are also given to students from science background who want to do BBA as well as students who have completed A- Levels.

- Honors Awards:** There are currently three types of Honors Awards offered by the University to recognize special distinction by a student in academics. In case of the Named Scholarship only, leadership and excellence in a variety of non-academic areas vital to one's growth as a citizen and professional is also given due consideration. The three awards are the Named Scholarships, Vice-Chancellor's Honors List and the Dean's Honors List.

### Named Scholarships

The award is usually given to a student for the normal four-year duration of his or her program. In case of awards during the course of a program, it applies only to remainder of normal duration. Named Scholarships

are not extendable beyond the normal four year or twelve term duration. Anyone requiring a longer time to graduate, (for any reason whatsoever) loses the award after the normal duration. At that time, it becomes available for a new recipient. It also may become available sooner if an awardee fails to retain it due to poor performance or standing. Due to the nature and conditions of its award, the Named Scholarship is not available every year or term. When available, the University will notify students with the minimum required qualifications to apply.

1. The Named Scholarship is awarded to a student of outstanding merit in both academics and cocurricular areas. He or she must also be in good standing in every respect, and demonstrate lively school spirit, including community service. A CGPA of at least 3.8 is the minimum requirement to apply for this award. Students may apply only after completing one year of studies at the University.
2. Each recipient will receive a full waiver of tuition and registration fees, effective from the term of award till graduation (not exceeding remainder of 4-year program duration). The scholarship also carries a stipend of Tk. 2,000/- (Tk. two thousand only) for the recipient during the first three months of a regular term, for a maximum of 9 months in a calendar year.
3. The scholarship does not exempt the student from Club fees, or charges or fees for special tours, trips, projects and so on.
4. Students awarded this scholarship are expected to conduct continuous study without leaves or breaks and complete their degrees in the normal four year period. In exceptional cases, a leave or break may be allowed with continuance of the scholarship, at the discretion of the authorities.
5. Each recipient will have to take full course load in a regular term. No recipients will be allowed to get W, I or F grade in any term. Receiving these grades may lead to immediate revoking of this scholarship.
6. Once awarded, all students, entering or enrolled, are expected to uphold a minimum CGPA of 3.8 per year to maintain the Named Scholarship. A student's status will be reviewed at the end of each term, and scholarship status, if required, revoked or revised at the end of the year.
7. Typically, Named Scholarship awardees are expected to demonstrate a strong co-curricular record and lively school spirit. Community service related activities are strongly recommended for Named Scholarship recipients.
8. To be in full compliance with the Code of Conduct of the university is absolutely essential, and any serious breach may lead to an immediate suspension or revoking of the scholarship.

However, a student must provide genuine and constructive feedback focusing only on teaching and learning. There are complaint boxes on the campus that allow students to put forward their concerns. Every year, the ULAB conducts an exit survey on the graduating students and the findings of the survey are presented before the management for continual process improvement in teaching, learning, and administration.

## Academic Integrity

Freshers need to sign an Honor Pledge committing themselves to academic integrity. It can be an important tool to address problems of plagiarism and academic misconduct. Detailed Academic Integrity policy can be found in the 'Appendices' section of this handbook.
